Julie Behrens makes a motion to approve the minutes of the meeting held on 4/19/18, John seconds, all in favor, minutes approved.

**President's Report:** John reports the rock work on the bridges has started, one bridge is done.

**Financial Report:** Financial reporting is done quarterly so nothing at this time.

**Old Business:**

**-Road & Bridge Maintenance:** Alan Gruber gave an overview of which roads around the Valley have utilized the Thin Lift overlay process. The product is comprised of 3/8 inch aggregate with a performance grade binder (the oil) suitable for the climate. The smaller aggregate size offers smaller differential settlement, fewer dips and dives for a smoother road surface and better ride-ability, a benefit not achieved with a slurry seal. A slurry seal protects existing aggregate, extending the life of the road for less money. Discussion of the pros/cons, the current state of the different roads. Drainage issue on Walking Deer, any other areas? Discussion on timing – June/July/Aug optimal. Input from Jerry/SGM & from Greg/United Companies is what Alan will gather next. An interim Board meeting might be necessary.

**-Landscape:** The signage lighting should be fixed. Think about re-staining the stop signs and the intersection posts suggests Alan. With watering restrictions in place, the proposal for flowers has been modified.

**-Elections:** Completed Oaths of Office paperwork can be scanned and sent to Tom Mullans' office.

Julie makes a motion to adjourn, Grant Bennett seconds, all in favor, meeting adjourned at 11:50am
